

2017

Thank you for purchasing our *Self & Match* Manual and Digital Materials!

We're excited to share our system with you.

Here you will find digital copies of many *Self & Match* forms.

Please feel free to use them, edit them, and create your own *Self & Match* forms, but do not forward these files to others.

As a reminder, in order to ensure the integrity of the program, *Self & Match* forms should be individually created for each student and should not be universally copied or distributed without systematically completing the *Considerations Prior to Implementation Guide* first. In addition please note you are not permitted to post these forms or others that you have created to any resource sharing websites such as Teachers-Pay-Teachers.

All *Self & Match* developers/creators should own a *Self & Match* manual or attend a one-day *Self & Match* Introductory training offered by *Self & Match* Educational Consultation. Whenever possible, we strongly recommend using the *Self & Match* Manual as a supplement to our introductory training. Our trainings provide a deeper understanding of the systematic nature and detailed approach involved in the individualization of each *Self & Match* system.

When referencing the *Self & Match* name, please note that it is *Self & Match* and never "Self and Match", "Self n Match", "Self Match", or "S&M." The *Self & Match* logo may not be altered in any way. Additionally, all forms should also include (Salter & Croce, Year) on the bottom right footer in size 8 font.

We welcome you to contact us with any additional questions!
